

3D Art Trick

IDEAS TO STEAL

WATCH.

How to draw a floating cube - 3D Art Trick on Paper.

Watch here

https://youtu.be/3_3uQYTg9GQ

TALK.

Who is the best drawer in your class? Is anyone really good at drawing just one thing? Is there any grown up in your family that can remember how to draw bubble lettering? Ask your grown ups if they remember a thing called The Lettering Book and get them to tell you why they loved it ... (<https://bit.ly/2WRiasW>)

DO.

See if you can follow the instructions on the video to draw this amazing floating 3D cube. The best bit has to be tilting the paper at the end to turn the whole thing into an actual cube. Post your efforts below.
