

SCHOOLKIT AT HOME

LISTEN: Behaves So Strangely, an episode of the podcast Radiolab for Kids.

TALK: What do you think makes 'music' musical? Can you make music without musical instruments? Are there any noises in your house that you notice sound musical when they are repeated? (Maybe a ticking clock?)

DO: Come up with your own 'Word Loop Songs'. Write up to ten sentences of five words each. They can be random, or they can be whole sentences. Repeat them over and over until they sound musical. How many repetitions did it take? What sentences did you like the best?
