**WATCH:** What is Eyebombing?

**TALK:** If you were an eyebomber is there anything that you can see from where you are sitting right now that would make a good nose or a mouth but just needs a pair of googly eyes? Why do you think just adding a pair of eyes makes people happier in this video?

**DO:** Remember that one of the first rules of eye-bombing is that you cannot damage the wall or surface. Your eyes cannot be stickers or things that will not come off or make a mark. Make yourself pairs of googly eyes with paper and pen. The aim is to make people in your bubble smile. Get your google eyes in place when the grown ups aren't looking.
