

# SCHOOLKIT AT HOME

**LOOK:** And tour around the inside of the International Space Station on Google Maps (<https://bit.ly/2SOylig>)

**TALK:** Could you live in a space station? What would be the best bit? How long would you like to be away from your family? What do you think would be the hardest bit about being weightless)

**DO:** Listen to Ada Twist, Scientist read aloud by an Astronaut while they are actually in space. (It's Sunday - sit back and enjoy this wonderful book).
