

SCHOOLKIT AT HOME

WATCH: The Sound of a Million Migrating Monarchs.

TALK: Have you seen any monarch butterflies during lockdown? We know there were lots and lots seen in Newtown in Wellington recently... Take a moment to listen to Victoria University entomologist Phil Lester - he (and the monarch butterflies) needs your help this week. Listen to him on [RNZ](https://bit.ly/3cq212r) here <https://bit.ly/3cq212r>.

DO: Go in search of Monarch butterflies this week (before you have to be back in the classroom on Monday). Take some sticky tape with you. Phil tells you how to get the sticky tape sample he needs from the monarch's abdomen in the interview but there is also a really great video there too. Send your sticky tape sample to Phil Lester, Monarch Disease Survey, School of Biological Sciences, Victoria University of Wellington, PO Box 600, Wellington 6140
