

SCHOOLKIT AT HOME

WATCH: Morse Code from the Museum of Obsolete Objects.

TALK: How good a listener are you? Who is the best listener in your bubble? Do you think you could listen to a piece of morse code and then translate it accurately. Type in a message at <https://www.radio-amater.rs/morsecodegenerator/> and play the sound file. (it feels really fast).

DO: Use the Morse Code Sheet and write a 5 word message to a friend or to someone inside your bubble. Can you transfer your morse code message between each other successfully:

1. On paper.
2. With a torch in the dark.
3. With sound.

Use this sheet as your base alphabet: <https://makingfriends.com/junior-detective-morse-code-printable/>
