

SCHOOL KIT AT HOME

LOOK: Check out the map section at MetKids <https://www.metmuseum.org/art/online-features/metkids/explore/>

TALK: Who is the oldest person in your bubble? Can you put all of your bubble people in order of age? Now can you think of ten more people you know and put them in order of age? Now think about what would be the oldest thing in your house ? When was it made? How old does that make it?

DO: You will need to find everything on the [The Metropolitan Museum of Art, New York](#) map. Jump in the Time Machine and see if you can find a real picture or video of each thing on the map. The Time Machine will let you select time + region + type of object. Tick each item off as you go.
