

# SCHOOLKIT AT HOME

**WATCH:** The Alphabet 2

**TALK:** Why are there so many alphabet videos? Why do we have to learn the alphabet? Why do we have to learn the letters in a certain order if they don't actually spell anything that way? Why do so many people choose Apple as the thing for A?

**DO:** Find as many alphabet videos, books or cards as you can. Extra points for

- finding an alphabet video for a language other than English,
- finding an animated alphabet video,
- finding an alphabet video of just animals,
- finding an alphabet video of just feelings,
- find an alphabet of sign language

Decide what makes a good alphabet video and make your own not-boring one. Just one rule - no apple for the letter A!!!

Just to get you going with a few not-boring starting points:
