

SCHOOL KIT AT HOME

WATCH: Take a look at the travel posters below.

TALK: It is really easy to post a review online - and when no-body questions the reviewer it is easy for people to be negative. Do you think people are "more honest" because they can leave a review online? If they had to speak the review to a person, would they say the same thing? A US designer decided to create a series of hilarious travel posters for all some of the 1 star reviews.

DO: Use a site like Trip Advisor. Choose a place of interest (a theme park, park, hike or museum. Read the 1 star reviews and find the most ridiculous. Illustrate and share.
