

Maths

Number Knowledge

Choose one or two from below to practice every day.

Identify all the numbers in the range 0-20, 0-100 or 0-1000

Say the forwards and backwards counting sequences in the range 0-20, 0-100 or 0-1000

Order the numbers in the range 0-20, 0-100 or 0-1000

Say the number 1 more or 1 less in the range 0-20 or 0-100

Say the forward and backwards skip counting sequences in the range 0-20 or 0-100 by twos, fives, and tens.

Instantly recognise patterns to 10, including finger and tens frame patterns.

Number Knowledge Challenge

Know doubles and halves to 20

Say the number 1 more/less, 10 more/less or 100 more/less in the range 0-1000.

Know multiples of 10 that add to 100 ($30 + 70 = 100$)

In the bubble learning are some activities that you can do with you child to support their number knowledge. Use whatever materials you have around the house to represent numbers. For example, spoons, lego pieces, straws, toothpicks, soft toys. If your child is confident with numbers in the range 0-20 then extend the range to 0-100 or 0-1000.
