

# Sock Puppets

From: [Learning4Kids](#)

A homemade toy that encourages imaginative play! Creating a character or a new friend out of a sock brings hours of fun.

## What you will need

You can use just about anything around the house or you could raid your craft box to make these sock puppets.

We used craft glue, wool, felt, scissors, wiggly eyes, pompoms, patty pans and buttons. The craft glue does wet and soak the sock but not enough to glue it closed shut.

## Learning Opportunities

- Language development.
- Storytelling and imaginative play.
- Creative thinking and concentration skills.
- Motor coordination development.
